PMSI LAUNCHES MYCLAIMSKIT.COM ONLINE RESOURCE CENTER

Comprehensive Tool Delivers Anytime, Anywhere Support for Workers' Compensation Claims Management

TAMPA, Florida (August 22, 2011) – PMSI, one of the nation's largest and most experienced companies focused on workers' compensation today launched a new online resource center to help support the growing number of claims professionals working remotely.

MyClaimsKit.com is a web-based portal where adjusters and case managers can find and access resources to support their management of workers' compensation claims. This new website features tools to assist in the claims management process and the submission of referrals for DME, Home Health Care, Mail Order Pharmacy and Medicare Set-Asides. The site also offers easy access to informational resources such as discharge planning checklists, regulatory and legal summaries, and a Medical Terminology reference guide.

MyClaimsKit.com includes an extensive library of product information that site visitors can access to research items ranging from mobility equipment to electro-medical therapies. One of the highlights of the site is the *Ask the Experts* section where visitors may submit questions to PMSI's experts in the DME, Home Health Care, Medicare Set-Asides or Pharmacy areas. The site also addresses key adjuster needs such as news alerts, conference schedules, association links, and continuing education.

"MyClaimsKit.com is designed to help adjusters find what they need, when they need it," explains Pat Sullivan, PMSI's President of Specialty Services. "We have always worked closely with our clients to help develop innovative solutions to decrease the administrative costs of claims management. As the remote workforce has grown, we've heard about the difficulty many adjusters are having in finding a reliable and single reference point for service and information anytime. MyClaimsKit.com is designed to address this need through a web-based channel to ensure our customers have access to the information and resources on demand."

About PMSI

Founded in 1976, PMSI is a leader in developing solutions to control the growth of medical costs in workers' compensation. As one of the nation's largest and most experienced companies focused solely on workers' compensation, we deliver proven solutions for cost containment across the claims lifecycle. PMSI's Pharmacy, Medical Services and Equipment,

and Settlement Solutions products deliver quantifiable results and improve the quality of care for injured workers. We provide our customers with the innovation, focus, expertise, analytics and technology needed to successfully deliver workers' compensation benefits.
